

## Marina attends the Leaders & Members Conference in Britain - March 2009

Marina attended the conference in Southport along with her daughter, Marcela, who assisted with interpretation. Marcela also attended the Generations session in Southport during the conference.

"After the Aglow Leaders and Members conference in Southport in March, I had a meeting with the Aglow ladies in Chisinau, and the Regional Leader there, where I spoke about the conference and its impact on my life" says Marina

Before coming to Britain for the conference she had already planned a one day conference in Chisinau on 28th March. 98 women from different churches attended. The theme of the conference was "A voice for the times" the same as in Southport. At the end of the Moldovan Conference many ladies wrote that they want to be involved in the ministry of Aglow in their city, town or village.

Marina was also able to share with the women the information that Marcela had received from attending the Generations session at the Southport Conference. 18 young women all responded, that they want to be part of Generations in Moldova. Marina followed up this by meeting with interested ladies on 16th May 2009, now there are ladies ready to start new Aglow groups in their communities.

Also, on 30th May Marina will be travelling to the south of Moldova for a day conference with women from different churches from the south of the country. Please pray for the conference and all the new work that is being started.

There are currently 14 active groups of Aglow International in the Republic of Moldova.
