

## **Update on the work of Aglow in Moldova – December 2009**

### **Marina Samoil – Aglow National Assistant Republic of Moldova**

Marina organised a meeting with a lady from a Messianic Church in Chisinau who is the director of a Centre where they work with women who are planning to have, or have already had abortions (abortion prevention). There are children who have been saved through this work.

Marina invited this lady (her name is Sveta) to one seminar with Aglow groups from Chisinau, Ialoveni and Vadul lui Voda and she talked about the activity of the Centre, about the work they are involved in and she also had some testimonies of saved children. Some of the women from Aglow who had had abortions decided to attend some of the seminars of this Centre where women receive healing and are able to serve other women afterwards.

There is one Aglow group in Chisinau where the women started to work in this area – they go to the Gynecologic Department of the Republican Hospital and talk to the women who are planning to have an abortion.

The Aglow Leaders in Moldova have been praying for this kind of ministry and are thankful to God for His answer.

In addition to the affiliated group, there are now a further 6 unaffiliated groups formed in Chisinau:

Generations project – where nine girls are being supported and taught by other ladies from Aglow

Home group, Prayer group and four groups for community service (one group working in an abortion clinic) and a new Bible study group will be soon formed.

These groups have been reaching out in their communities with ladies from Aglow Chisinau visiting the Mother and Child Centre in Chisinau. The ladies talked with the patients about Christ and one family (father, mother and the son) got saved. The ladies from Aglow have also talked about God with some of the doctors and nurses. They also visited an Elderly Care House in Chisinau where they talked about salvation and 5 women got saved.

The following month (July 2009) during an outreach in a village near Chisinau, several women got saved and now the Aglow group leaders have started a Bible study with the 5 women who were saved at the Elderly Care House. They followed up the visit to the Elderly care House (Chisinau), in August and one more woman got saved.

We praise God for the commitment that the ladies are giving to the ministry. All the women in Aglow Chisinau, meet once a month for a night of prayer, worship and Bible study and the fruit is evident.
